O'NEILL
SS23 SUNGLASSES COLLECTION

ONS 2023

Introducing 32 RX-able sunglasses for Summer 2023.

HYDROFREAK™ lenses offer exceptional high-quality optics with 5 distinct features

ZEROFORM™ frame material performance material is impact resistant, lightweight and flexible

PSYCHOTECH™ contact zones rubber offers a sweat resistant dry grip

Green Product Award-winning O'Neill BLUE sunglasses continue to expand the sustainable family. BLUEVAIR and BLUEJOLLA are precision formed from recycled fishing nets with recyclable mineral glass lenses.

In the rest of the 2023 sun collection, you'll still find the O'Neill styling trends, hot new colours and prints featured in O'Neill's summer apparel to help you look cool AND stay safe. With frames offering 99% + UVA & UVB protection and polarised lens options, O'Neill sun is your best grab when heading to the ocean.

NEW HYDROFREAK™ lenses

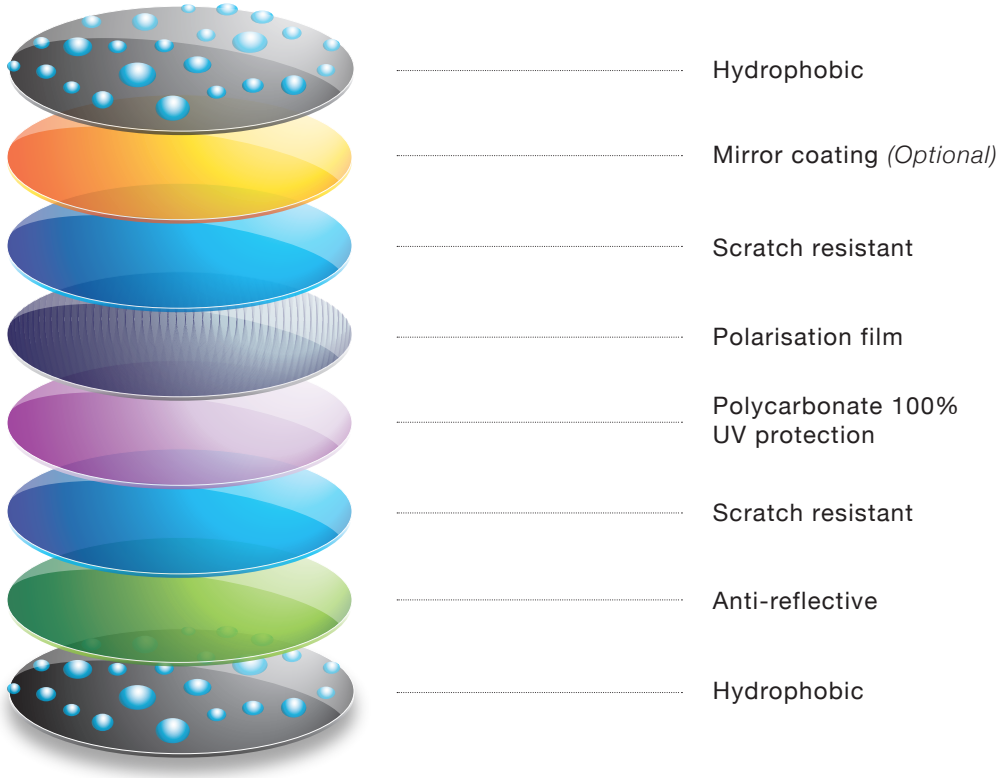
Salt water-resistant polarised lenses

- **HYDROPHOBIC COATING**
- **POLARISED FILTERS**
- **LIGHTWEIGHT POLYCARBONATE**
- **IMPACT-RESISTANT**
- **SCRATCH-RESISTANT**
- **ENHANCED UV PROTECTION (UVA / UVB 400)**
- **ANTI-REFLECTIVE TO REDUCE GLARE**

O'Neill introduces HYDROFREAK™ lenses, with high quality polarising filters sealed and protected from water damage by adding repellent hydrophobic coat and tough scratch-resistant, backside anti-reflective coating and impact-resistant polycarbonate.

HYDROFREAK™ lenses also bring supreme visual clarity - halo elimination, increased contrast and truer colours.

All O'Neill frames are fitted with lenses to offer enhanced UV400 UVA and UVB protection from sun damage.



SPECIALISED FRAME MATERIALS

SPECIALISED FRAME MATERIALS

PSYCHOTECH™ contact zones

Sweat-resistant dry grip

- **NO-SLIP TOUCHPOINTS**
- **MULTI-POINT IMPACT SHOCK ABSORPTION**
- **O'NEILL COLOUR BRIGHTS**

Wherever O'Neill sunglasses frames make contact with your skin, find soft touch PYSCHOTECH™ rubber precision-moulded to cushion impact and retain a dry grip - even in damp conditions. PSYCHOTECH™ rubber in O'Neill colours means it's always summer on the inside.

ZEROFORM™ frame material

Precision-molded ergonomics for active people

- **LIGHTWEIGHT FLEX POLYMER**
- **DURABLE**
- **PRECISION-MOULDED CONTOUR FIT**
- **O'NEILL COLOUR AND FINISH OPTIONS**

Active people seek out comfort, flex and durability. The answer to all of these requirements lies in ZEROFORM™ - a synthetic polymer, elastic enough to give flex and secure fit, strong enough to resist impact, and lightweight for all day wear.

We pushed ZEROFORM™ to the limit and designed a whole collection of sunglasses combining them with the best of O'Neill lens technologies. The results are here, with the very best of vision protection featuring UV400 polarisation, hydrophobic quick drying lenses and strategic PSYCHOTECH™ contact zones.

ONS WOVE2.0

Ghostnets and recyclable rubber. Repurposed ocean waste combines with natural mineral glass lenses – every element thoughtfully aligned with O'Neill's BLUE mission to protect our oceans.
