# SUPERDRY®

SS23 —— SUNGLASSES COLLECTION

# SS23

- **NEW: 14 models / 56 skus.**
- **C/O: 12 models / 46 skus.**
- **Total inc. C/O = 26 models / 102 skus.**

## KEY TRENDS / NEWNESS:

### LOVE STYLE, LOVE THE PLANET

- We have replaced polycarbonate frames with BIO-based G850 material for our 2023 collection.
  This is made from 45% BIO-based material castor oil; which is a renewable, sustainable resource.
- We have also introduced 3 x NEW premium handmade BIO-based acetate models – SDS 5011, SDS 5012 & SDS 5013. BIO-based acetate is composed of at least 50% BIO-based content. BIO-based acetates uses lower impact plasticizers which contain significantly less pthalates (DEP <1%).

### CONTRASTING THICKNESSES

- Slimline front silhouettes with thick side profiles. See the contrasting thicknesses featured on BIO-based acetate models SDS 5011, 5012 & 5013 for rebellious Superdry styling.

### PREMIUM BRANDING TREATMENTS

- NEW metal branding treatments to temples (see SDS 5011) including 'overedge' branding which wraps the top & side of the temple. See metal styles SDS 5002 & 5003 for molded metal temple branding inspired by Superdry jacket sleeves. Athleisure styled models SDS 5009 & 5010 feature rubber branding treatments on temple & tips.

### NEW COLOUR TREATMENTS

- Colour ranging from STUDIO's inspired paired back khaki & tobacco crystals, through to classic pops of Superdry orange & oil slick mirrored lenses. Whatever your style, Superdry is your go-to.

# SDS 5011

**Bio based acetate wayfarer.**
**Bevel cut edge detail.**
**Premium 'over edge' metal branding.**
